1. A plant known as the Krosavets Automobile and Tractor Parts Factory was under construction in Febraury 1956. The factory site was located 800 meters south of the Kolarovgrad reliway station. It was rumsered to cover 350 decares. Soviet engineers sided in designing the factory.    all construction would not be finished until 1960. 275   Trudovaks, 15 civilian laborers, 2 engineers and 7 technicians were working at the site   2. A sketch of the factory site area is attached. Legend for the sketch is:  1. New high school building; 2. Former high school; 364. Barracks of the Trudovak unit engaged in construction of the Krosavets plant; 5. Barracks of the Trudovak unit engaged in construction; 6. Machine tractor station; 7. A building 80x30 meters which will be the repair shop of the Krosavets factory. Construction of this building was completed prior to February 1956; 8. Former jail now used as school of arts; 9. Cannery; 10. Zinc factory; 11. Dormitory for guards of the Krosavets plant; one story, 15x15 meters; 12. Warehouse. Foundations laid by February 1956; appeared to be about 40x10 meters; 13. A building 80x8 meters which will be a cafeteria. Construction completed prior to February 1956; 14. Building which will be a turning lathe shop, about 30x10 meters; only foundations laid by February 1956; 15. Factory office building. When completed, it will be 3 stories high with September 1956.						25>
